Summary

Passionate and self-motivated front-end developer with freelancing experience in crafting responsive web platforms. Punctual and adept at task prioritization, I thrive in both independent and team-oriented work environments. I am now seeking a Front-end Developer position in an exciting and growing company, where I can contribute my skills and be a part of innovative digital experiences.

Experience

Front-end Developer

Freelance • Sydney, NSW

01/2023 - Present

- **Website Development:** Building and implementing front-end components of websites, including layout, navigation, forms, and interactive features, based on client requirements and design specifications
- **HTML/CSS Coding:** Writing clean, well-structured HTML and CSS code to create visually appealing and responsive web pages
- **JavaScript Implementation:** Adding interactivity and functionality to web pages such as form validation, animations, and user interactions using JavaScript/React
- **Responsive Design:** Developing websites that are mobile-friendly and adapt to various screen sizes, utilizing media queries and responsive design techniques
- **Collaborating with Designers:** Working closely with graphic designers to translate design mockups into functional web pages while maintaining visual integrity
- **Bug Fixing and Troubleshooting:** Identifying and resolving front-end bugs, issues, and inconsistencies that may arise during development or testing
- **Version Control Management:** Utilizing version control systems (e.g., Git) to manage code revisions, track changes, and collaborate with team members
- **Continuous Learning:** Keeping up with industry trends, new technologies, and best practices in front-end development to enhance skills and deliver high-quality work

Graphic Designer

Nirman Sathi • Kathmandu

01/2019 - 04/2020

- **Conceptualizing and Creating Designs:** Developing creative concepts and transforming them into visually appealing designs across various mediums, such as print, digital, or social media
- **Branding and Identity Design:** Crafting brand identities, including logos, typography, colour palettes, and brand guidelines, to establish and maintain a consistent and recognizable brand image
- **Layout and Composition:** Designing layouts for marketing materials, such as brochures, posters, advertisements,

or websites, ensuring effective visual hierarchy, typography, and overall composition

- **Collaboration and Communication:** Collaborating with clients, understanding their design requirements, objectives, and target audience, and effectively communicating design concepts and ideas. Additionally, working closely with other team members, such as copywriters or developers, to deliver cohesive design solutions
-
